

UNINET CONTINUES COLLABORATION WITH UPM RAFLATAC AT PACK EXPO 2016

UniNet will be demonstrating their iColor® 700 digital LED toner-based printer in UPM Raflatac's booth at the Pack Expo Show from November 6th to the 9th in Chicago. Situated in Booth N-6275, the teams will be highlighting short run digital label printing using label stocks from UPM Raflatac's Print-On-Demand line. This range provides a selection of innovative paper and film combinations that offer high quality imaging and excellent durability for labeling and packaging. Applications include food and beverage, health and beauty, product and shipping, as well as the recently approved polyester (PET) that is now BS5609, section 3 GHS certified for chemical and drum labeling.

UniNet partnered with UPM Raflatac, global supplier of pressure sensitive label materials, to create worldwide solutions for converters and customers that ensures professional results using the iColor® digital label printers. The iColor® 700 low fuser temperature technology supports printing production on a broader range of standard and specialty substrates including BOPP, PET, vinyl and more.

"The printing capabilities of the iColor® series continue to grow based on our collaboration with UPM Raflatac. By partnering with them we are able to offer a diverse selection of substrates for converters and commercial printers looking to expand their product offering, or brand owners looking to create the perfect image for their packaging. We look forward to demonstrating the iColor® 700 in their booth and our continued partnership in the future," said Joe Dovi, COO at UniNet.

Visit Booth N-6275 at Pack Expo to see demonstrations of the iColor® 700 working in unison with UPM Raflatac substrates. For additional information on this product and more, please email sales@icolorprint.com or visit www.icolorprint.com

About UniNet

UniNet is a worldwide Original Equipment Manufacturer (OEM) with over 25 years of experience in the imaging industry. With sales, service and distribution networks on every continent, we have earned a global reputation for high quality products and customer service. As the innovator of specialty products such as "Absolute Color", "White" and "Fluorescent" toners, UniNet offers its OEM line of iColor® Short to Mid-Run Digital Label, Digital Color + White Transfer Media Printers, label finishing solutions, and much more.

About UPM Raflatac

UPM Raflatac is one of the world's leading producers of self-adhesive label materials. We supply high-quality paper and film label stock for consumer product and industrial labeling through a global network of factories, distribution terminals and sales offices. We employ around 2,900 people and made sales of USD 1.5 billion (EUR 1.4 billion) in 2015. UPM Raflatac is part of UPM - The Biofore Company. Find out more at www.upmraflatac.com
