June 1, 2016

We purchased our iColor 500 printer the last quarter of 2015. It has been a great improvement to our business! We now can put a wide assortment of labels on most our candle products (containers, pillars etc.) using the AquaClear paper. We also get better quality out of the tee shirt transfers we do using the 1 step paper. The customer service that Uninet provides is also top notch; Joe Dovi and Mike Fairchild have gotten us out of more trouble then can be imagined! The iColor 500 has all but made our Go Uno printer a paper weight! In fact, we are thinking about purchasing an iColor 700 so that we can print larger size paper (the only drawback to the 500 is that it only prints on 8 ½" wide paper). We plan on using a lot more of the Uninet products in the future!
